# Halal and Sustainable Waste Management

**Duration: 3 hours**  
**Online**

**Timings: 2.00 pm to 5.00 pm**  
**(Malaysian Time)**

**Advanced Certificate in**  
**Applied Sustainable Practice**  
**GPM Global (USA)**

**Instructor:**  
**Ts. Mohd Faisal**  
**Abdur Rani**

a certified Green Project Manager, Assessor, and consultant with a specialization in waste management. His expertise extends across a broad spectrum of sectors, including Power, Green Energy, Carbon & Climate Change, Professional Services, and Non-Profit Organizations.

As waste management becomes an increasingly important aspect of environmental responsibility, this 3-hour online course delves into the integration of Halal and sustainability principles into waste management projects. Participants will gain the knowledge and skills needed to manage waste responsibly while ensuring Halal compliance. This course equips professionals to create waste management projects that align with ethical, environmental, and regulatory requirements.

# Topics Covered In This Course:

## **Introduction to Halal and Sustainable Waste Management**

- Understanding the significance of combining Halal and sustainability in waste management.
- Identifying challenges and opportunities in the field.

## **The Triple Bottom Line Approach in Waste Management**

- Balancing economic, environmental, and social considerations in waste management projects.
- Ensuring profitability while promoting environmental and social responsibility.

## **Sustainable Waste Management Practices**

- Integrating sustainable waste management techniques into project planning.
- Reducing environmental impacts and promoting recycling and waste reduction.

## **Halal Waste Handling and Disposal**

- Ensuring Halal-compliant waste handling and disposal practices.
- Meeting regulatory requirements and ethical standards.

## **Supply Chain and Procurement for Waste Management**

- Implementing sustainable supply chain strategies in waste management projects.
- Procuring waste management equipment and materials ethically and responsibly.

## **Environmental Risk Mitigation and Regulatory Compliance**

- Identifying environmental risks and regulatory requirements.
- Developing strategies for waste management project compliance and responsible disposal.

# Instructor's Profile

**Mohd Faisal Abdul Rani** is a certified Green Project Manager, Assessor, and consultant with a specialization in waste management. His expertise extends across a broad spectrum of sectors, including Power, Green Energy, Carbon & Climate Change, Professional Services, and Non-Profit Organizations. Mohd Faisal possesses in-depth knowledge of the social, environmental, and economic impact elements that operate within the framework of sustainability.

Passionate about addressing environmental issues affecting the planet and the pressing concern of climate change, Mohd Faisal brings a wealth of experience to the field. His profound understanding of Sustainable Consumption and Production, as well as the social aspects integral to sustainability, guides his work.

Mohd Faisal excels in improving the performance and efficiency of processes that contribute to sustainability, making him an invaluable resource for organizations and communities striving to adopt more sustainable practices. His extensive involvement in Clean-Up Campaigns, Waste to Wealth projects, Recycling, and Circular Economy programs, often in collaboration with Municipalities, Governmental Bodies, Regulators, and NGOs, has earned him numerous international and local Sustainability Awards.

His dedicated efforts and successful projects exemplify his commitment to addressing environmental challenges and advancing sustainability practices.
